Center for Academic Service-Learning
March 11, 2008
8:30 am – 9:45 am
SCA 113.1

ITEM 1. Earth Day Progress

Discussion: Pam Pannozzo: Folke Peterson Wildlife will attend and bring some animals. The Environmental Club has them as their sponsor.

Heidi Ladika-Cipolla reported the tree is out. Chris Ward told her no tree and plaques due to the constant replacement during hurricane season. Pam stated she was told she could plant trees near Pond Apple, Heidi will call and confirm. We need a tree. Arbor Day Foundation only gives our saplings and Pam said they do not do well. We will ask Marissa to call about a tree; we will also need to contact the Florida Native Plant Society and Montes Botanical Garden. Heidi also reported she has been unable to get a response from John Wasukanis regarding PBCC having a table with how they are going green. Tracey said she just spoke with him yesterday and she will try again today. Will also call SWA, they may spur on the response. Tracy is attending a native plant gardening class; she is going to speak with her professor to see if he may be interested in doing a one-hour lecture for our faculty during our Earth Day festivities, we will contact HR to see if it is possible to list this event as a “Brown Bag” session.

The group decided that we should play the video outside in the TC courtyard since the only media room available was in the CE building (we will keep this room for the lecture). The video we would like show is “The Great Warming”, PBCC has already purchased the film.

As for signage, much discussion regarding prices around campus for posters and what not, and we have no money, so Heidi will contact Phil in printing and find out the best route for us to go. Pam stated the Environmental Club is going to do a bottle drive and would like the other clubs involved to compete. The ICC will meet Monday, March 31st at 12:30 pm in CRA 203. Shelby will attend for us and try to get the other clubs to host information tables.

Trish and Pam will work outside on a scavenger hunt. Trish suggested a fund raiser with beans, they are inexpensive. We package beans with a soup recipe or even seed packets with educational notes. Tracey told us about the grocery bags she had ordered for Focus the Nation. Boca campus must have some left over that they are using for their Earth Day event. Heidi will contact the local Publix and Whole Foods to see if they would donate any bags to PBCC.

Trish found a tribal drum band in Melbourne that may have the date available; we will work on sponsor money for them. Trish also stated she is now on a committee for the PBCC calendar of events; she will look into having our event listed. We also should contact the music department for possible students that play acoustic guitar.

Data/data source:

Action: Marissa Germain: call for tree and invite Florida Native Plant Society and Montes Botanical Garden.
Tracey: Call John regarding the PBCC table on going green.

Contact gardening professor "Joe" regarding speaking Tuesday, April 2nd.
Shelby: Contact PBCC Music department.
Contact Media center for outside viewing of "The Great Warming".
Attend ICC meeting Monday, March 31st at 2:30 pm.
Heidi: Inquire on signage policies at PBCC.
Solicit grocery bag donations from area grocers.
Trish: Contact Tribal Drum Group.
Work with Pam on scavenger hunt.
Contact Tish Sailor for calendar of events on PBCC website.
Pam: Work with Trish on scavenger hunt.

ITEM 2. Database

Discussion: Heidi continues to make entries into the Access system.

Data/data source:

Action: Continue.

OTHER. Next Meeting Date

Discussion: Already scheduled for April 1, 2008, 8:30 am SCA 113.1

Attendance:

Heidi Ladika-Cipolla
Trish Froehlich

Shelby Norris

Pamela Pannozzo

Heidi Ladika-Cipolla, Scribe
