

## **FFP 1822 Emergency Management Systems Principles and Practices**

Instructor: C. Everette Vaughan

Reference #133939

### **COURSE DESCRIPTION:**

This course discusses the evolution of emergency management. It provides an insight of emergency management systems including: function; phases of emergency management; relationships between local, state, federal agencies; career opportunities; emergency manager responsibilities. The course also examines modern approaches to disaster management based on theory, legal requirements and community expectations. This course is the first of eight courses that lead to the completer receiving a College Credit Certificate in "Emergency Services Management."

**COURSE DATES:** January 6, 2010 – May 7, 2010
