

QEP – Current Status Report

Committee Name	Priority Number	QEP Title	Current Status/Comments
Admissions/Registration	1	Student Advisement	QEP has not been further developed.
Admissions/Registration	1	Admissions & In-Take Process	QEP has not been further developed.
Curriculum/Class Scheduling	1	Incoming Student Survey	IRE has drafts of the survey completed for use in an upcoming term. This will require coordination, but the original QEP was pretty solid in its timelines and plan.
Curriculum/Class Scheduling	1	Secondary Diagnostic and Placement Test	This has been forwarded to the FCCSC group for development from a technical level. We will need to identify the proper assessments and what cur scores will place students in various levels of prep courses. The plan will also need to allow for communication with the FCCSC on when the new functionality in PantherNet can be delivered.
Curriculum/Class Scheduling	1	Prep Math Course Revision Review	The prep cluster has been working through many ideas in the Title III grant. We have already instituted revised cut scores for Math Prep Level II. This QEP can probably be combined with several of the other ones in a subcommittee for prep to fully implement changed across developmental education.
Curriculum/Class Scheduling	1	Prep Course Sequencing	The prep cluster has been working through many ideas in the Title III grant. We have already instituted revised cut scores for Math Prep Level II. This QEP can probably be combined with several of the other ones in a subcommittee for prep to fully implement changed across developmental education.
Curriculum/Class Scheduling	1	Algebra Refresher Workshop	CCE has already developed much of this curriculum so it could be implemented through a paid registration or a "free" workshop for students where the instruction would be appropriate; i.e. relearning forgotten algebra skills rather than developing new algebra skills.
Curriculum/Class Scheduling	1	Supplemental Instruction	The supplemental instruction model would be applied to these classes as it has been applied in other science and math classes.
Curriculum/Class Scheduling	14	Survey of AA Students Transferring Prior to Completion	IRE has drafts of the survey completed for use in an upcoming term. This will require coordination, but the original QEP was pretty solid in its timelines and plan.
Curriculum/Class Scheduling	15	Long Term Student Tracking System	IRE is using data downloads from PantherNet which are refreshed nightly in a sort of data warehouse. This project would be expensive to implement – possibly needs to be scaled back unless significant financial support is given to purchase a data warehouse and reporting system. We will need to work with the FCCSC to see where their data warehouse efforts are going as this was one of the major recommendations of the Exeter study.
Curriculum/Class Scheduling	17	Student Learning Outcomes Development	The project is well underway with a manual developed and training about to commence. This will be mostly monitoring to ensure timelines are met.
Distance Learning	8	Course Management - Phase 1	The conversion to Web CT Vista is underway in technical installation and training through Dr. Beck. A training plan and milestones have been set.
Distance Learning	8	Course Management - Phase 2	The conversion to Web CT Vista is underway in technical installation and training through Dr. Beck. A training plan and milestones have been set.
Faculty Development	1	Student Response System (SRS) - Clickers	The clickers have been purchased and Jeannine Burgess is working with faculty in classrooms. This is mostly monitoring and assessment.
Faculty Development	1	Learning Communities	QEP has not been further developed.
Faculty Development	12	Faculty Experimentation and Testing Tablet - Phase 1	QEP has not been further developed.
Faculty Development	12	Faculty Experimentation and Full Access Lab - Phase 2	QEP has not been further developed.
Faculty Development	12	Faculty Support and Orientation	QEP has not been further developed.
Faculty Development	12	Faculty Support and Release Time	QEP has not been further developed.

QEP – Current Status Report

Committee Name	Priority Number	QEP Title	Current Status/Comments
Faculty Development	12	Interactive Learning Lab - Phase 1	QEP has not been further developed.
Faculty Development	12	Interactive Learning Lab - Phase 2	QEP has not been further developed.
Faculty Development	12	Mobile Learning	QEP has not been further developed.
Faculty Development	12	Faculty Development Through PTLC	
Financial Aid	2	Research Student Financial Needs (1): Financial Aid Databases	QEP has not been further developed.
Financial Aid	4	Financial Aid for F-1 and Disabilities Students	QEP has not been further developed.
Financial Aid	7	Research Student Financial Needs (2); Identifying Additional Financial Recourses; Identifying All College Students' Financial Recourses: Redesign Financial Aid Process	QEP has not been further developed.
Human Resources	18	Diversity Training for Part-time Staff	QEP has not been further developed.
Information Technology	1	Student Email	QEP has not been further developed.
Information Technology	2	Document Imaging Management	IT has a plan for implementation that is currently underway.
Information Technology	8	Portal	A basic student portal is included in the new version of PantherNet that is currently slated to be installed in October.
Information Technology	10	Noncredit Registration	A one page online application is on the web. The FCCSC needs to be communicated with to see if the concept of a course "shopping basket" is in the works or the functionality that BCC developed can be installed here.
Information Technology	11	Automate Tasks	QEP has not been further developed.
Recruitment	3	Alumni and Community Recognition (1)	QEP has not been further developed.
Recruitment	5	Alumni and Community Recognition (2)	QEP has not been further developed.
Recruitment	6	Outreach Activities	PBCC has many outreach activities this would merely be an expansion of those activities.
Student Engagement	1	Student Mentoring	QEP has not been further developed.
Student Engagement	1	Engaging and Retaining Low-Income, First Generation College Students and Students with Disabilities	QEP has not been further developed.
Student Engagement	9	Service Learning	Heidi Cipolla-Ladika is currently working on Service Learning through faculty release time.
Student Engagement	13	Student Engagement Outside the Classroom	QEP has not been further developed.
Student Engagement	16	Strengthening Employment Outcomes	QEP has not been further developed.
