

Hazardous Materials III (FFP 2423C)

Instructor: Vince Cannuscio (Reference #133170)

COURSE DESCRIPTION:

This course addresses the last part of the four part Hazardous Materials Technician program in bringing a hazardous materials incident safely to conclusion. It concentrates on integrating knowledge about hazardous materials chemistry, storage, transportation, and potential release scenarios. Students will be taught the use of personal protective equipment, tools, detection devices, decontamination procedures and the use of specialized equipment that will allow them to successfully mitigate a hazardous materials emergency.

The course is for personnel who will face hazardous materials response and mitigation functions. In order of priority they are: members of fire service hazardous materials response teams; hazardous materials company officers; training officers; chief officers; and members of hazardous materials response teams from allied agencies.

COURSE DATES: November 2, 5, 14, 17, 20, 2009
PBCFR "C" Shift 8:30AM – 5:30PM

COURSE LOCATION: PBCC Fire Academy Lake Worth Campus SCB-148 [Directions](#)
