

## **Looking for a way to get College Credit for your Cert's???**

**If you've taken a class at the Florida State Fire College, it's easy. Just bring a copy of your FSFC certificate to the PBCC Fire Science Director, and it will be taken care of at no charge. If you have certificates from a non accredited institution, Vocational Schools, South Tech, PBCFR, etc, you must use the PBCC "[Prior Learning Portfolio](#)" process.**

**If you've taken classes through a "regionally accredited" institution, all you need to do is have that institution send your transcript to the Fire Science Director, and it will go onto your PBCC transcript at no charge.**
